Dear Sir,

We send you by to  
days mail sample of the *Armasylvia*  
which we sent some time ago.  
it seems there are two species in this  
lot which Mr. Pringle states, this one  
which we hope will bloom so you  
can see it, has white ~~flowers~~ flowers.

We also enclose a bloom of  
the large *Zigrichia* from Mr Pringle  
which did not bloom until very  
late last season, with us, and thought  
to be *T. pavonia*.

Yours truly  
Gillett & Horsford
